

Dear Parish Family:

Thank you for your help in helping us to plan our budget for 2021. The pandemic has put great restrictions on our fundraising, and we are going to have to tailor our budget mainly to what our membership is able to give with their generous commitment. With cuts that may have to be made to personnel, we will also need to have volunteers to offer their time and talents for the maintenance of the parish campus. We will probably have to wait for another year before a vaccine has widespread availability and we can begin to gather again. As we may seem to be in a survival mode, we also can learn some virtual habits which we can carry over when we have freedom to gather again. This pandemic has caused us to get with the various social media formats and that should prepare us to be more in tune with the modes of communication of our culture-at-large.

Thank you for participating in our stewardship program. We appreciate your many contributions, especially your prayers for the success of our parish mission.

In Christ,

Father Phil
